

# Testimonies

The Bible says that the Lord worked with the disciples confirming the Word with signs following. (Mark 16:20)

The signs, miracles and healing are a vital part of the gospel. Without the miracles, it is difficult to convince the scores of skeptics and the unreached that the gospel is real and that Jesus is alive. Each time the people see a miracle, they believe in the authenticity of the gospel. Below are a few of the hundreds of miracles and healing that God performs each time we go out with the gospel.

## Deaf and Dumb since birth now Healed

This 11 year old has never heard or spoken a word since birth. This night he heard for the first time and repeated words spoken to him accurately.

## Healed from terminal Tuberculosis and heart disease

The Doctors gave her two weeks to live because she had a case of terminal tuberculosis and her heart was failing. She was already coughing out blood due to ruptured veins and was bleeding furiously internally. She was carried to the healing service because she could not walk. During the message as she stood up and began to run all over the auditorium, leaping and jumping and praising God.

## Healed from paralysis

She was carried to the crusade in this community where we had a three night gospel campaign. On the second night of the meeting she got up on her feet. Here she demonstrates the restoration of her hands by lifting them up for all to see.

## The Blind see.

This woman turned blind 15 years ago. After prayer at our gospel crusade she received her sight. Here she counts the number of fingers on Pastor Barnabas' hands while Australian Evangelist Adrian Murray watches.

## Born Blind but now can see.

This night could well be termed "blind people's night". This woman who was born blind received her sight instantly when hands were laid on her. Here she reaches out to touched Pastor's nose to show she can see perfectly.

## Delivered from Spirit of epilepsy.

For 13 years, his parents had to endure the torture of seeing their son tormented by a spirit of epilepsy that often throws him into water or fire and leaves him for death. Having tried all traditional remedies and herbs without solution, they decided to move over to the witch doctors who took almost all they had and yet could not provide a cure for their son. On the first night of this gospel campaign, the evil Spirit of epilepsy was cast out and the young man was set free for ever.

## Could Not use her hands before

10 years ago she lost the use of her hands to a mysterious illness. She sought for a cure every where without success. After prayer, she felt strength returning to her hands and she noticed the power of God was really present to heal her as she heard from the message. Here she carries a mortar to demonstrate that strength has returned to her hands. She was completely restored this night.

## Healed from Diabetes and Arthritis

This community Leader came to the gospel Campaign from skepticism and actually only attended to convince his people afterwards that Jesus can no longer heal. As he sat there his pains from the Arthritis he suffered for years became unbearable. But as pastor Barnabas began to pray, all the pains left him, but he still he refused to believe until he went to conduct tests the next day to confirm if it was real. The test came out to show he was healed from his arthritis and diabetes. He came back to testify in the morning meeting and many of his people believed on Jesus because of his testimony.

## Spinal cord Injury healed

For five years he could not bend down or kneel without excruciating pain due to a spinal cord injury. Tonight he bends freely for the first time after learning about Jesus the healer.

## Another blind man can now see

He turned blind after a simple case of cataract that was not treated. The Eye hospital told him it was too late to do anything for him. Tonight after prayer, he could see men “walking like trees” so pastor Barnabas laid hands on him for that second touch and his sight was perfectly restored.

## Arthritis and Rheumatism healed

This woman spent all that she had to be relieved from the pain that left her devastated for years from arthritis and rheumatism. At a point, she even despaired of life. Today after prayer, she was set free and the pains have not returned again.

## The Deaf hear

Seven years ago she turned deaf in both ears after suffering an attack of typhoid fever. There was no explanation given for her condition despite all her attempts to find a cure. After prayer at this gospel campaign, her ears suddenly popped open and she could hear even a whisper.

## 22 year leg injury healed

For 22 years she endured the harassment of embarrassment of going around the community with a leg injury that will not heal. All medications proved unsuccessful as the purse from her leg will not dry up. During this campaign, she felt some form of warm sensation go through her leg as prayer was being said and on looking down, she realized the sore her dried up.
